

CLEAN STEP™

The Multi-Purpose Cleaner & Degreaser

What is Clean Step™?

- * An excellent high performance multipurpose cleaner, degreaser, sanitizer concentrate in one solution.
- * A water-soluble cleaner and degreaser specially designed for more difficult surface cleaning applications.
- * Specifically designed for all Safe Solution treated surfaces.
- * Clean Step provides a quality cleaner for the toughest commercial floors, and is superior to the vast majority of general-purpose cleaners in the market.
- * Clean Step is biodegradable and environment friendly.

What makes the "Clean Step™" a superior high-performance cleaner over most others?

This product has four (4) main components to assist in all areas of commercial and residential cleaning and degreasing.

The raw materials are for the most part completely independent standalone items, but as a blend have a synergistic effect – i.e. they combine in new and innovative ways helping each other work more effectively.

- 1) **Specialized Surfactants (2)** - Work at breaking down the greases and oils into uniform and small (head of a pin) size globules. When it has done that, the surfactant surrounds the soil with a thin film that repels other globules, thereby not allowing the grease or oil to recombine into a large mass. This makes it easier for the water to rinse away the soil and not allow it to redeposit on the surface.
- 2) **Sequesterant** - This is a water softener that ties up the

water minerals so they will not interfere with the action of the other raw materials.

- 3) **Organic Solvents** - This helps to soften hard greases and oils that may have hardened due to age or temperature. The softer surfaces are more receptive to the actions of the other raw materials.
- 4) **Alkalis (2)** - These additions work by converting the major components of greases and oils (fatty acids) into forms of soaps; thereby, creating another cleaning agent and by converting a water insoluble soil into a water soluble cleaner.

With all these different components, Global Safe has created a superior cleaner with an ability to clean a greater number of soil types.

SUGGESTED DILUTION RATIOS EXAMPLE:

To eliminate confusion and for simplification, we have suggested to the general consumer that the following dilutions be used:

Floor cleaning/degreasing: **20-parts H2O : 1-part Clean Step™**
ex.: Daily Ceramic Floors, Stairs, Pool Decks, Patio Decks

All purpose cleaning: **10-parts H2O : 1-part Clean Step™**
ex.: Bathtubs & Showers, Stoves, Vinyl Seats & Dash, Linoleum, Countertops, Drink Machines, Fridges, Shelving, Walls, Office Equipment, Commercial Kitchen Equipment, Marine Decks & Hulls, Awnings, Patio Furniture & Umbrellas, Rubber Mats, Automotive Carpets, Presoaking Pots & Pans, Garbage Containers, Refrigerator Coils, Carpet Stains, Industrial Floors, Washrooms

Toughest cleaning: **5-parts H2O : 1-part Clean Step™**
ex.: Automotive Parts, Laundry Stains, Long-term Grease & Scum Build-Up

Always follow cleaning instructions and rinse thoroughly.
